WONDERS OF HEART

MIGHTY WONDERFUL ORGAN !

Enormous reserve power of heart -

Do you know that heart works continuously 24 hrs a day, 365 days in a year - from birth till whole life WITHOUT REST ?
Amazing!

Heart has enormous reserve power called CARDIAC RESERVE.

The heart has the capacity to work 5-7 times than its resting cardiac output in the young, well trained athlete - Wow!

Further the person may be unconscious (brain is failing) still the heart is working because it has intrinsic (own) power generating system.

Though powerful organ it may be but highly susceptible to emotional excitement-emotions of anger, fear, grief can slow down or increase its speed like anything & cause it to be DISEASED.

MIRACLES OF HOMOEOPATHY IN HEART DISEASES -

Saving life with homoeo healing dynamites

(without operation)

- * **How can homoeopathic small doses possess great power to fight life threatening pathological heart conditions like blocked blood vessels, valvular problems, pulse disorders, holes in heart.....?**
- * **Is it as fast as an Intensive care unit treatment ?**
- * **It is possible to avoid expensive heart By-pass surgery & operations for valve replacement ?**

Our answer is - YES, YES.....!

To know the answer, one has to understand :-

- 1. HEART DISEASE - A MULTISYSTEM DISORDER**
- 2. PSYCHOLOGICAL RELATIONSHIP OF HEART WITH MIND**
- 3. HOLISTIC APPROACH OF HEALING**
- 4. HEALING THE MIND**

UNDERSTANDING HEART DISEASE --

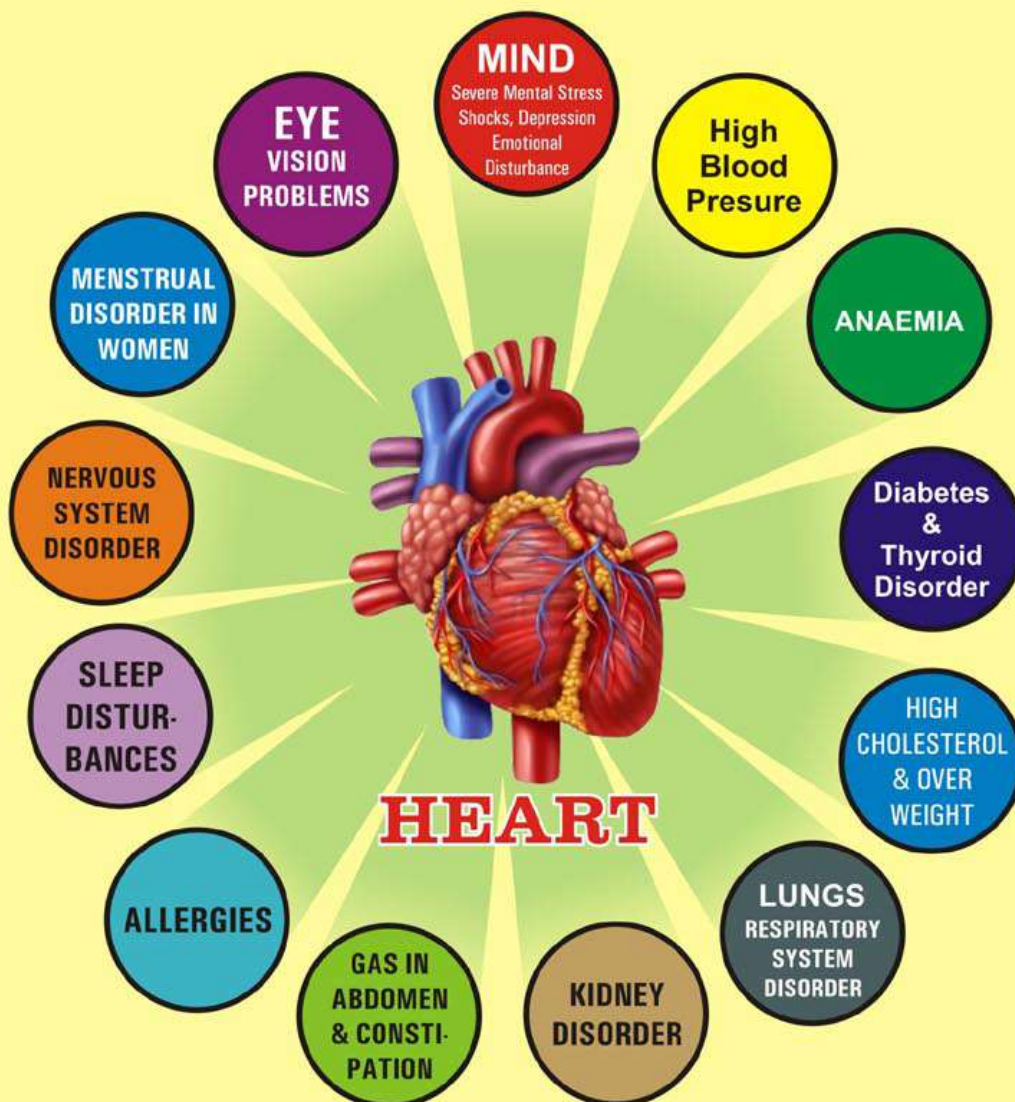

Is Heart disease located only in heart or is it a Multisystem disorder ?

Normally Heart works in harmony with all the organs & systems of our body, If this harmony is disturbed due to some reason, the heart is under stress.

A combination of disorders in other systems of body are present long before the development of heart disease.

Heart gets overburdened with physical, psychological & physiological strains since years --

Like physical & mental overwork in ambitious persons to attain so & so much, Stained family relations, business problems, financial problems, Sudden shocks or loss of family members or illness, Burdens placed on heart by multiple pregnancies.

HEART DISEASE - A MULTISYSTEM DISORDER

HEALING THE MIND-

of heart patient is Most Important. Why ?

Through careful observation, we have investigated the mental aspect of heart patients. The mind in most cases is terribly depressed, in constant agitation, sleepless nights, violent disturbance expressed in anger, pictures of discontentment, resentment, worries, various fears, apprehension, thoughts of death, suicide.... etc. are prevailing & filling the mind.

These mental images **REFUSE** to vacate the mind and torment (mental torture / suffering) the patient day & night.

So the healing of mind is **MUST**.

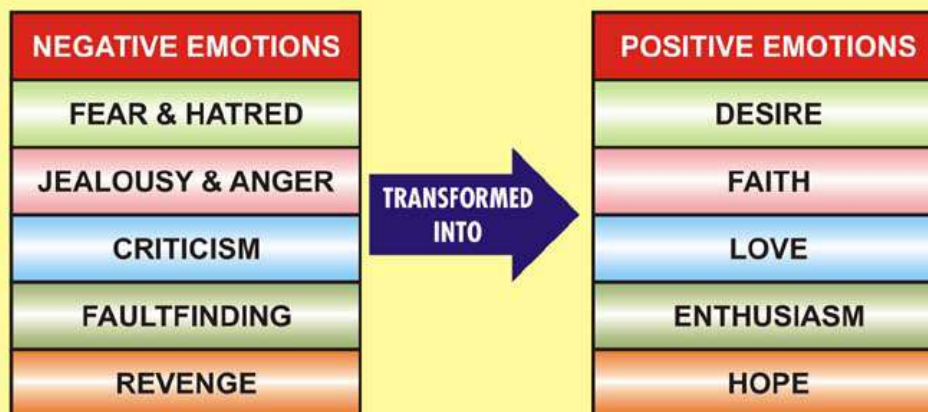

HOLISTIC APPROACH OF HEALING --

Homoeopathy takes into account the **PSYCHOSOMATIC MAKE UP OF** the patient (i.e. mind body relationship, **HAVING BODY SYMPTOMS OF MENTAL ORIGIN**).

Homoeopathy understands patients as **WHOLE INTEGRATED HUMAN BEINGS** (body, mind & spirit).

Homoeopathy has a holistic approach of healing - **It treats the patient as a whole** i.e. Healing the mind, raising the spirits of person with the diseased heart.

Homoeopathy heals the broken hearted, reinvigorates the weary (tired with energy abated) and under heavy press of modern life. (Grief, anxiety, worry, tension, discontent, despair, fear etc.).. Negative emotions are transformed into Positive emotions, which is been heals the heart.
